Trevor Gibby

Fort Worth, TX | Ph: (385) 267-9015 | trevor.gibby@gmail.com | github.com/trevor-gibby

Professional Summary

Experienced Full Stack Developer with 4+ years in web development and 1 year in team leadership. Proficient in both front and backend technologies with a strong expertise in PHP, Node.js, MySQL and React. Passionate about writing clean code, working closely with team members to build robust solutions, and building industry-leading technology.

Summary of Qualifications

- Expertise in server-side, client-side, and data store technologies including PHP, Node.js, React, and MySQL.
- Experienced with building new CI/CD pipelines and utilizing existing DevOps systems.
- Strong team leadership skills, with experience mentoring developers, fostering collaboration, and driving project success through clear communication and technical guidance.
- Proven ability to organize and prioritize tasks effectively, ensuring timely project delivery in fast-paced Agile environments.

Work Experience

Ninthroot – Saratoga Springs, UT

Software Development Team Lead (January 2024 to Present)

- Led a team of 4 developers in setting goals and assigning projects to accomplish the company's mission.
- Worked side-by-side with the team in increasing our project capacity by 100% in a single year.
- Trained and mentored other developers leading to an average reduction of 33% in project completion time.
- Coordinated with other departments to strengthen efforts in meeting client expectations.

Full Stack Web Developer (April 2021 to January 2024)

- Collaborated with a team of developers to plan, design, implement, test, and maintain complex web applications using LAMP stack, Node/Express, and Next.js.
- Developed API integrations to allow our systems to communicate with 3rd party services including Meta and Google.

- Led the development of 15+ consumer-facing websites with project completion time 50% quicker than the team average.
- Implemented AWS services into our tech stack to provide an emergency backup hosting service for our applications.

Education
Bachelor of Science in Computer Science: Full Stack Web Development, Summa Cum Laude
Utah Valley University, 2023

- Front End Web Development
  - HTML5
  - CSS3
  - SCSS
  - JavaScript, ES6
  - jQuery
  - Bootstrap
  - React.js
- Back End Web Development
  - PHP 7, 8
  - Apache
  - Nginx
  - Node.js
  - Express
  - Next.js
- Data Store Technologies
  - MySQL
  - MongoDB
  - Mongoose
  - Prisma
  - Redis
- Software Engineering
  - Python
  - Java
- Cloud Technologies
  - AWS
    - S3
    - EC2
    - API Gateway
    - Lambda
    - DynamoDB
    - RDS
    - Step Functions
    - EventBridge
- Version Control
  - Github
  - Bitbucket
- CI/CD
  - Bitbucket Pipelines
  - Vercel
  - DeployHQ

Certifications
- AWS Certified Developer - Associate
